Make sure you get a bike portrait done in our mobile bicycle studio before witnessing the Irish Premier of the 2nd Symphony for Singing Bicycles. A composition scored for 12+ bicycles, dynamos, tubes, speakers, gaffer tape and overalls, by the Belgian avant garde composer Godfried-Willem Raes. There will be bicycle beats from a selection of bike-loving DJs, and bicycle info and paraphernalia available for all. Our Danny has also fixed it that if your phone dies down town, he can charge it up on his bicycle phone recharger. Refreshing orange slices and water supplied by Mike O'Neill of the Beach Cafe, Fenit.

Peal - April, 2008 +

Peal is the name of a community bicycle project initiated by Michael Kelly that is to be undertaken in the weeks preceding the Kerry Bicycle Festival. The project involves the placing of 100 bells on 100 bikes around Tralee. The bells will be painted red so as to be easily identifiable. The distinctive look of the bells will allow cyclists to identify each other as fellow unwitting participants of the Peal Project. We hope to bring the bicycle bell sound back into the streets of Tralee.
